Subject: FW: 7th floor toilet

We had another incident where someone stuffed a toilet in the women's restroom on the 7th floor so full of paper towels that it clogged the plumbing lines so bad it backed up both the men's and women's restrooms on the 7th floor to the point that the toilets in both restrooms overflowed. It took 2 building engineers 2 two cleaning staff members 30 minutes to rectify.

Received a call from the front desk about the 7th floor rest room overflowing.

Allen, our Building Engineer took a picture of the problem. The problem was a toilet in the women's room stuffed with paper towels.

This caused both the men's and the women's restrooms to overflow.

This should be sent to HR Michelle Parker.

Thanks.
